

Muhammad Hamza

Automation Engineer | AI Solutions Engineer | Flutter Developer

linkedin.com/in/hamza-systems | hamza-systems.tech | m.hamza.systems@gmail.com | github.com/hamza19-2006

PROFILE

I build automation systems and production apps — not class projects. Published Brutl Fitness on Google Play. Built 8+ real-time n8n workflows that cut manual operations by 90% for real clients. Won 2nd place in UCP's AI Project Competition. Currently pursuing BSCS at University of Central Punjab.

EXPERIENCE

Freelance Automation Engineer

Self Employed

2025 – Present

- Designed and deployed 8+ production n8n automation workflows for real clients
- Integrated WhatsApp Business API, GoHighLevel CRM and AI models
- Built client web portals using React and Next.js
- Published Brutl Fitness app on Google Play Store

PROJECTS

Brutl Fitness — AI Workout & Nutrition Consistency Tracker

Jan 2026 – Present

Tech: Flutter, Dart, Firebase, REST APIs · Live on Google Play Store

- Built and published a Flutter fitness app on Google Play .
- Created a custom scoring algorithm (Brutl Score 1-1000) based on workout consistency, steps, and macros.
- Added macro tracking with visual ring charts for Calories, Protein, Carbs, and Fat.
- Built a gamified leaderboard with streak badges to keep users coming back.
- Offline-first design with Firebase sync so nothing gets lost between devices.

Autonomous Multi-Platform AI Content Distribution Engine

Sep 2025 – Present

Tech: n8n, Google Gemini API, YouTube API, Instagram API, WhatsApp Cloud API

- Built an n8n workflow that watches Google Drive and auto-posts to YouTube, Instagram, TikTok & LinkedIn — zero manual work.
- Uses Google Gemini to write platform-specific captions and hashtags automatically.
- Cut a client's weekly posting time by 90% (~15 hours saved per week).
- Set up WhatsApp alerts for live status updates and error recovery.

AI Study Assistant — Multimodal Exam Prep Platform

Nov 2025 – Dec 2025

Tech: Next.js, TypeScript, Google Gemini API, Supabase, Tailwind CSS

- Built a web app that turns lecture PDFs and notes into quizzes and study summaries using Google Gemini.
- Won 2nd Place at UCP's AI Project Competition (30+ teams).
- Students can ask follow-up questions — the AI remembers the full conversation context.
- Supabase backend handles auth, file storage, and quiz history.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2026-Present

University of Central Punjab (UCP), Lahore

Intermediate — ICS (Computer Science)

2024 - 2026

Punjab Group of Colleges, Lahore

SKILLS

- Automation & AI:** n8n, Google Gemini, OpenAI, Claude, Make.com, Webhooks, API Routing
- Mobile Development:** Flutter, Dart, Firebase, REST APIs, Google Play Console
- Web Development:** React, Next.js, TypeScript, Python, Tailwind CSS, Supabase
- Integrations & APIs:** WhatsApp Business API, Telegram Bot, YouTube API, GoHighLevel CRM, Instagram Graph API
- Tools & Platforms:** Git, GitHub, VS Code, Google Workspace, Android Studio
